Conversation with Kehoe

Small Business Grants

"Small businesses help make Missouri great.

Earlier this month, Governor Parson announced \$50 million in grants available for Missouri businesses, \$30 million of which is set aside for small businesses, and \$20 million is set aside for PPE retooling grants. Businesses interested in these grant programs can learn more and apply at showmestrong.mo.gov.

These are great resources for Missouri small businesses as they continue moving forward and recover from costs and loss of business associated with the pandemic." #MissouriProud #MissouriForward
